

GIVEN A NEW LIFE

My name is Vijay K. I had never been sick all my life until 26 September 2008, when I started experiencing severe headaches that lasted for several days. I went to the hospital for medical tests and I was told that I had a brain tumour and needed immediate surgery.

On 1st October 2008, I was operated. I stayed in the hospital for nine days, during which time more tests were conducted. After two weeks my family and I were called by the doctors to discuss the biopsy results. My family and I were advised that I had “Glioblastoma Multiforma Grade 4”, the highest and most aggressive grade of cancer and that I had 14 months to live! My family and I were devastated to hear this and as I was unable to work any more, I had to leave my job.

In the middle of October 2008, my wife’s friend contacted a person at the Sri Sathya Sai Baba Centre, who had recently come from Puttaparthi, India and was practicing a Healing Method called “Vibrionics” which has been blessed by Sri Sathya Sai Baba at Prasanthi Nilyam Ashram in Puttaparthi. The Vibrionics Practitioner came to my home to consult with me and recommended that I start Vibrionics remedies, follow a specific diet, take minerals, supplements, wheat and barley grass juice etc. I began to follow these instructions diligently and found that even though I was having radiation treatment for one month and chemotherapy for six weeks, I did not have any side effects because the Vibrionics remedies contained protection from these too.

Every week I was required to go for blood tests and the blood tests were normal and I was getting better and better. The scan tests were normal too.

In October 2008, following my surgery, I had lost 15 kilos in a week. I was given Vibrionics remedies to gain weight, as a result my appetite increased and in two to three months, I had gained the 15 kilos that I had lost.

As I was feeling better and stronger, in February 2009, I decided to do some gardening and spent four to five hours in very hot weather, mowing the lawn. My wife came out to check on me and found I had fainted. This was the first time I had a seizure. I was given Vibrionics remedy for this and am pleased to advise that I have had no seizures since then.

I did not like to take Chemotherapy treatment.

In March 2009 my blood test report was worrying and the doctors suggested that I have a blood transfusion. This was due to Thalassemia, which I had overlooked to mention to the Vibrionics Practitioner. I was given Vibrionics remedy for Thalassemia and after two days when I had another blood test, the results were normal and I did not require the blood transfusion.

In April - May 2009, my eyesight improved greatly and I could read without glasses. As I was feeling better and better, I spoke to my former Manager where I used to work, and he asked me if I was in a position to help him out. I consulted my doctor, who allowed me to go back to work for four hours a day. On the 2nd of June 2009, I started working five days a week for four hours a day.

In June 2009 I learned a new form of mediation called “Anapana Sati” and I implemented this meditation into my daily routine.

All this time I continued to follow the Vibrionics Practitioner's recommendations and take the remedies. Regular blood tests were done which showed marked improvement.

In July 2009 my doctor said that I could increase my work hours to six hours per day.

On Thursday, 27th August 2009, I went for an MRI (the final test for my medical condition). On 1st September 2009, we went to the doctor for the results. This was the same doctor, who had been

GIVEN A NEW LIFE

monitoring me since October 2008. He came along with the Head of Oncology Department who wanted to meet me. He said “Vijay, you are a Star, in less than one year the cancer has gone! This is a miracle!” The Head of Oncology Department told my doctor “don’t give him anymore medication, as the cancer has gone!”

After these results the doctor gave me a medical certificate stating I could return to full time work - eight hours a day. When I gave this to my General Manager of the Company, he was so happy that he started to cry!

Since October 2008, I have been vegetarian and alcohol-free, and now that I have been cured of Cancer, I do not have any craving or desire for meat or alcohol. Because of our Beloved Swami's grace I have been given a fresh lease of life and a new lifestyle too. I think there is a total transformation in my life.

During this course of this time I was constantly praying to our Beloved Swami for His Divine Grace and Blessings on my health and it is because of His Grace that my life has been saved through my treatment with the Vibrational Medicine “Vibrionics”. I am ever so grateful to Swami and offer special thanks to Him for bringing me into contact with “His Instruments” who helped me to achieve this complete cure.
